

PLANTERS' RECORD

VOL. XXV

A monthly paper devoted to the sugar interests of Hawaii,
and issued by the Experiment Station for circulation among
the plantations of the Hawaiian Sugar Planters' Association.

JULY

TO

DECEMBER

The Hawaiian Planters' Record

VOL. XXV.

ORGAN OF THE EXPERIMENT STATION OF THE
HAWAIIAN SUGAR PLANTERS' ASSOCIATION

HONOLULU

1921

HAWAIIAN SUGAR PLANTERS' ASSOCIATION

OFFICERS FOR 1921

E. F. BISHOP	President
J. W. WALDRON	Vice-President
J. K. BUTLER	Secretary
G. G. KINNEY	Treasurer
JOHN WATERHOUSE	Auditor

TRUSTEES FOR 1921

E. F. BISHOP	W. O. SMITH
A. W. T. BOTTOMLEY	E. D. TENNEY
J. M. DOWSETT	J. W. WALDRON
JOHN HIND	JOHN WATERHOUSE
E. H. WODEHOUSE	

EXPERIMENT STATION COMMITTEE

J. N. S. WILLIAMS, Chairman	
C. R. HEMENWAY	T. H. PETRIE
HORACE JOHNSON	J. W. WALDRON
G. P. WILCOX	
D. A. MEEK, Secretary	

EXPERIMENT STATION STAFF

H. P. AGE	Director
E. C. L. PERKINS	Consulting Entomologist
OTTO H. SWEZEY	Entomologist
F. MUIR	Entomologist
H. T. OSBORN	Assistant Entomologist
P. H. TIMBERLAKE	Assistant Entomologist
F. X. WILLIAMS	Assistant Entomologist
C. E. PEMBERTON	Assistant Entomologist
H. L. LYON	Botany and Forestry, in charge
L. O. KUNKEL	Associate Pathologist
E. L. CAUM	Assistant Pathologist
ADOLF HOLM	Supt. Forest Nurseries
GEO. A. McELDOWNEY	Forest Supervisor, Oahu Project
L. W. BRYAN	Forest Supervisor, Hilo Project
R. E. DOTY	Asst. in Pineapple Investigations
W. J. BRYANT	Asst. in Pineapple Investigations
W. R. McALLEP	Sugar Technologist
W. L. McCLEERY	Asst. Sugar Technologist
A. BRODIE	Technical Chemist
H. F. BOMONTI	Assistant Chemist
H. A. COOK	Assistant Chemist
GUY R. STEWART	Chemist
W. T. McGEORGE	Associate Chemist
F. R. WERTHMUELLER	Assistant Chemist
C. E. WARRINER	Assistant Chemist
E. C. THOMAS	Assistant Chemist
FRED HANSSON	Assistant Chemist
J. F. MELANPHY	Fertilizer Sampler
J. A. VERRET	Agriculturist
R. S. THURSTON	Associate Agriculturist
Y. KUTSUNAI	Assistant Agriculturist
J. H. MIDKIFF	Assistant Agriculturist
W. W. G. MOIR	Assistant Agriculturist
H. L. DENISON	Assistant Agriculturist
F. A. PARIS	Assistant Agriculturist
G. B. GRANT	Assistant Agriculturist
H. K. STENDER	Assistant Agriculturist
W. R. R. POTTER	Illustrator
D. A. MEEK	Chief Clerk

TABLE OF CONTENTS TO VOLUME XXV

	Page
Moreton Bay Fig Wasps in Hawaii	1
Fern Weevil in Australia	2
Plant Food Requirements	3
Balsa — A New Plant Immigrant	7
The Lightest Wood in the World	11
Production of Dairy Roughages for Hawaiian Plantations	13
Value of Press Cake Under Varying Amounts of Fertilizer	16
Nitrogen, Phosphoric Acid, and Potash	20
Ox Bot-Fly or Warble Fly, <i>Hypoderma Lineata</i>	23
The Inheritance of Productivity in Potato	25
Potato Improvements by Hill Selection	26
Phosphoric Acid at Paauhau	31
The Selection of Rubber Trees	33
The Single-Sheet Lap-Seam Boiler	34
The Position of the Seeds in the Soil at Time of Planting	42
Power Cultivation of Sugar Cane	44
Loss of Fertilizers from the Soil	51
Sugar Prices	55
Progress Report on the Work for the Improvement of Sugar Cane Through Bud Selection	57
The Fertilizing Value of Press Cake	65
New Seedlings at Hakalau	68
Rehabilitation	70
Forms of Nitrogen	77
Amount of Fertilizer and Number of Applications	80
Amount of Fertilizer, Time of Application, and Forms of Nitrogen	88
Furnace Design and Boiler Efficiency	93
You, Mr. Watertender	97
Sugar Cane Experiments in the Leeward Islands	99
Clarification of Cane Juice for the Manufacture of White Sugar, Using Magnesium Acetate	103
Sugar Prices	106
Plant Selection	107
New Leafhopper Enemy	107
Experiments With Potash	107
Wireworm Injury and Its Control	108
Fertilizer — How to Apply	108
The Sugar Cane Leafhopper and Its Parasites in Hawaii	108
The Effect of Cush Cush on Clarification	124
A Bedding Machine of Cane Lands	131
Nitrogen, Phosphoric Acid and Potash in Different Combinations	132
Liming at the First Mill	136
The Value of Potash in Hamakua	137
Where Greatest Attention Is Required in Power-Plants	138
Amounts of Nitrogen Applications	139
The Number of Doses in Which to Apply a Given Amount of Fertilizer	143

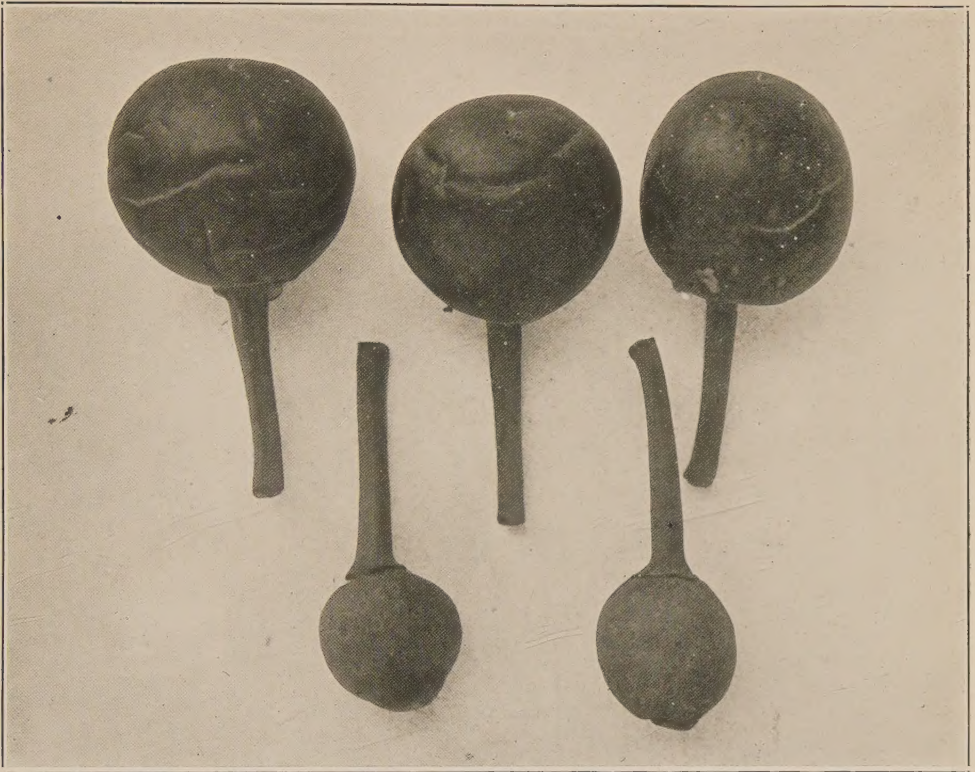

Fertilizer, Time and Number of Applications	146
Improvement of Rice by Selection and Hybridization in Java	149
The Dwarf Coconut in the Federated Malay States	151
Sugar Prices	154
The Moreton Bay and Port Jackson Figs for Hawaiian Forests	155
No Short Course This Year	155
Hilling in the Hilo District	156
Cane Varieties in Pioneer Mill Company	156
Nitrates	156
Biological Control of Destructive Insects	157
Improvement of Sugar Cane Through Bud Selection	157
The Sugar Cane Beetle-Borer Parasite in Fiji	161
Some Notes on Bud Selection of Sugar Cane	162
A Dust Insecticide Against Leafhoppers	167
Boiler Explosions in the United States During 1920	170
High Temperature Bacteria in Hawaiian Sugar Factories	171
A Phosphoric Acid Test	180
Phosphoric Acid and Potash at Lihue	183
The Value of Boiler Inspections	185
The Problem of Rat Control	187
Sugar Prices	193
The Proposed Program of Bud Selection Work	194
The Fern Weevil Parasite	195
Some Observations on Figs in the Philippines	202
The Hawaiian Sugar Planters' Insectary, Los Banos	226
The Betterment of Industrial Conditions	227
Bud Variation in Sugar Cane	230
Studies in Indian Sugar Canes	237
Forage Crops	242
Rat Control Measures	243
The Rat Menace in India	245
Fungi and Bacteria Responsible for Sugar Deterioration	246
Sugar Prices	268
H 109 — A Study in Variation	269
Experiments at Pioneer Mill	281
Artificial Farmyard Manure	288
Corrosion of Boiler Supporting Columns	290
Effect of Decolorizing Carbons on Juice	294
Report of the Committee on Mill Equipment	301
Sugar Prices	328

ILLUSTRATIONS APPEARING ON THE COVERS OF
VOLUME XXV.

No. 1.

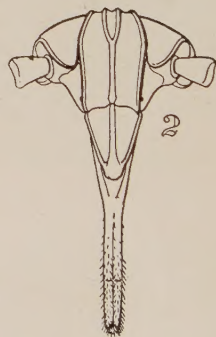

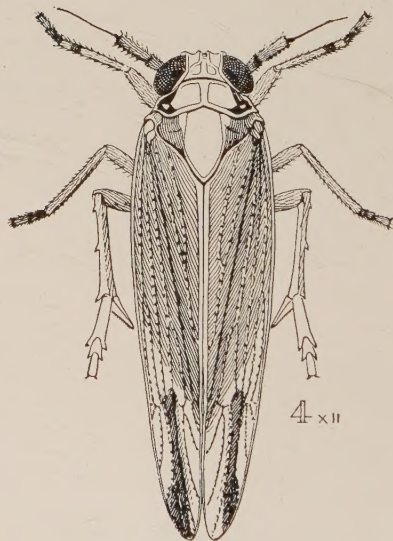

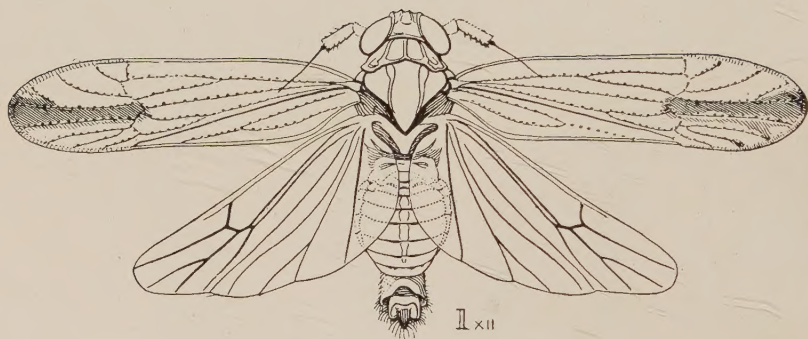

Fruit of the Moreton Bay Fig, Honolulu, showing in the upper row the ripening induced by the fig-wasps introduced from Australia. Before this fig-wasp was imported all the figs fell to the ground in the green state of the two specimens shown below.

No. 2.

A remodeled plantation village.

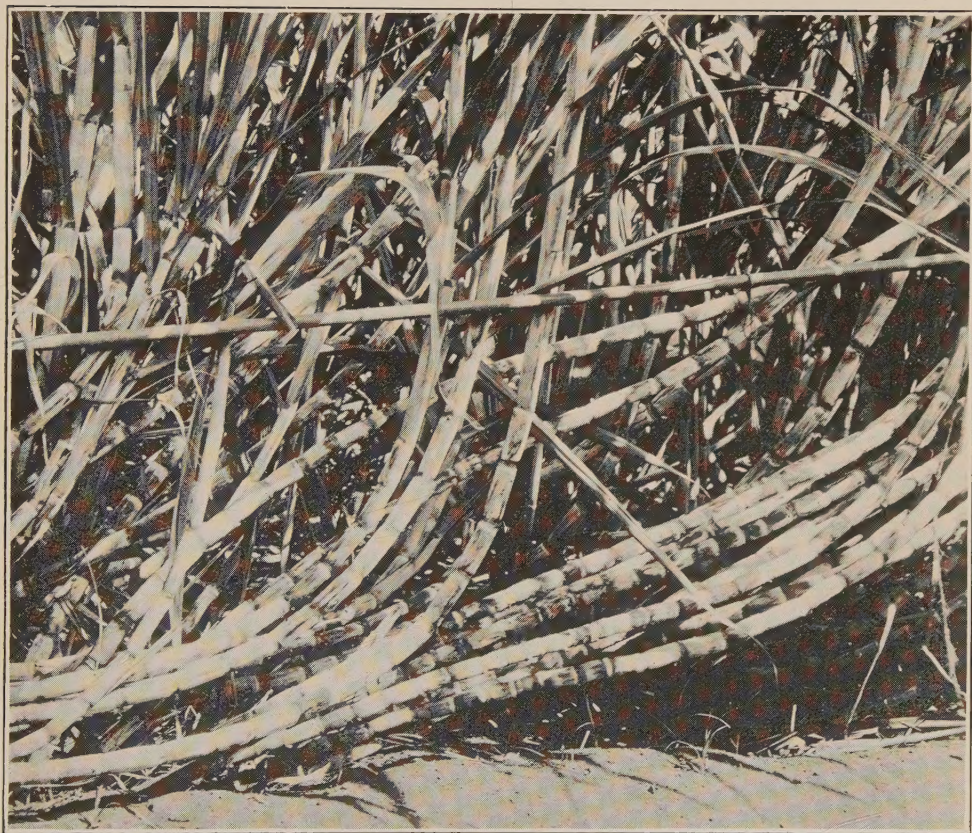

No. 3.

The Sugar Cane Leafhopper.

No. 4.

A Product of Bud Selection.

This plot of H 109 cane was grown from seed cane selected after the methods developed by
A. D. Shamel.

No. 5.

A Study in Bud Selection.

One of several bags of exceptionally uniform H 109 seed, the product of a single stool.

No. 6.

A good clump of sugar cane in point of size, number, and uniformity of sticks.
The variety is H 109.
